

LKS2 - Homework Web

Summer 1 – Plants

Please choose 1 of the following projects to complete to help further your knowledge and understanding of this half term's Science topic. **Alternatively, if you have a burning desire to complete a different related project, you can surprise your teacher with that instead.**

Option 1: Physical Literacy

Go for a walk around your local environment. What plants can you spot? Can you spot how plants disperse their seeds?

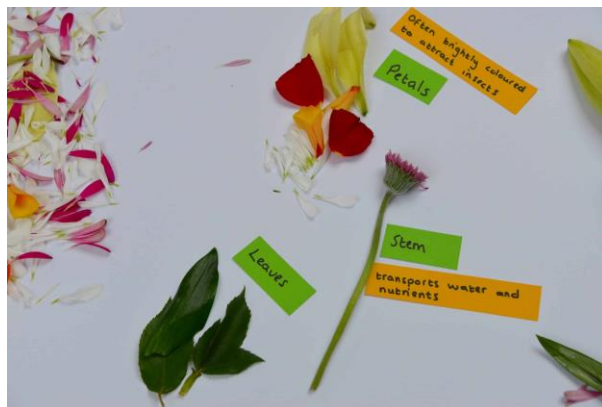

Use what you have found to create a poster showcasing the different plants you have found. Can you label the different parts?

Option 2: Parts of a plant

Dissect the different parts of a plant looking closely at the reproductive parts. How do they make new seeds?

Create a model or a fact file to show what parts you have found? Can you tell me their different jobs too?

Enjoyment

Option 3: Plant Pictures

Create a piece of artwork using your observation drawing skills. Choose a flower or plant and look carefully at the different parts to draw them accurately. You can use any media you wish

You could also follow a Draw With Rob to create your own version.

All homework should be completed to the best of your ability and handed in prior to the last phase assembly of the half-term.
