

## LKS2 - Homework Web

### Spring 2 – What can I see from my window?

Please choose 1 of the following projects to complete to help further your knowledge and understanding of this half term's Geography topic. **Alternatively, if you have a burning desire to complete a different related project, you can surprise your teacher with that instead.**

#### **Option 1: Create a 3D model of a building, statue or place within Westhoughton.**

There are many significant monuments and buildings in Westhoughton. Choose one area to focus on in detail, this could be an area linked to previously taught topics e.g. World War 2 and the Pretoria Pit.

#### **Option 2: Draw, paint or create a picture of the view from a window in your house.**

Matteo Pericoli is an artist/architect who is well known for creating art based on views from a window. Create some artwork inspired by the view from a window in your house. You could paint, draw or print.

#### **Option 3: Create a textile creation.**

Historically a part of Lancashire, Westhoughton was once a centre for mining, cotton-spinning and textile manufacture. Create your own textile creation, this could be through sewing, knitting or even cross-stitch!

**All homework should be completed to the best of your ability and handed in prior to the last phase assembly of the half-term.**
