

LKS2 - Homework Web

Summer 2 – Health and Nutrition

Please choose 1 of the following projects to complete to help further your knowledge and understanding of this half term's Science topic. **Alternatively, if you have a burning desire to complete a different related project, you can surprise your teacher with that instead.**

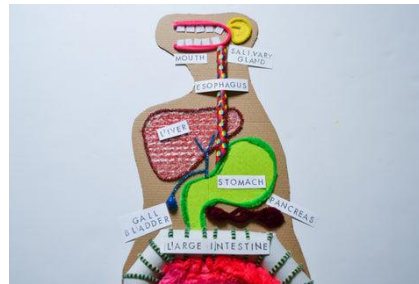

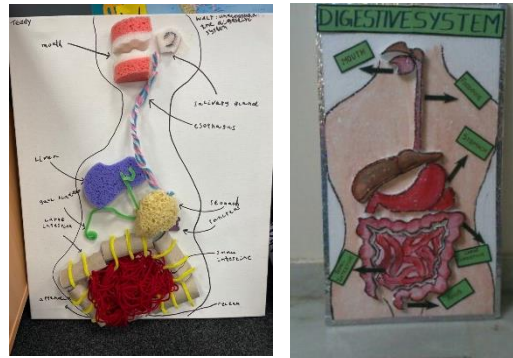

Option 1: Draw, paint or create a 3D model of teeth.

Humans have three main types of teeth. Create a model showing the main types of teeth and the purpose of each.

Option 2: Create a 3D model of a digestive system.

Digestion happens in the digestive system. This is a series of organs that break down the food so it can be absorbed into our blood and travel around to where it is needed. Create your own 3D the digestive system to show how digestion works.

Growth Teamwork Success
Achievement Enjoyment

Option 3: Create a video documentary identifying predators and prey.

A food chain shows how plants and animals get their energy. Create a video of food chains, identifying predators and prey.

You may want to watch Sir David Attenborough for some inspiration.

All homework should be completed to the best of your ability and handed in prior to the last phase assembly of the half-term.
