

KS1 - Homework Web

Summer 2 – Plants

Please choose 1 of the following projects to complete to help further your knowledge and understanding of this half term's Science topic. **Alternatively, if you have a burning desire to complete a different related project, you can surprise your teacher with that instead.**

Option 1: Complete a nature walk looking for common garden and wild flowers

Share your walk however you choose. You could create a fact file about the different flowers you found, share some photos or create a poster

Option 2: Draw, paint or create collage of your favourite flower

We have been learning about common garden flowers and wild flowers; comparing them and learning their names.

Choose your favourite one and either find it in real life or on the internet. You could use your observational drawing skills, watercolours or collage materials to create your artwork.

Option 3: Build a tree house

Trees are great for climbing or exploring. Using some junk modelling (cardboard tubes, cardboard boxes) or construction kits (magnatiles, stickle bricks) can you create a model tree house?
